Criterion 7

Institutional Values and Best Practices

7.1.3

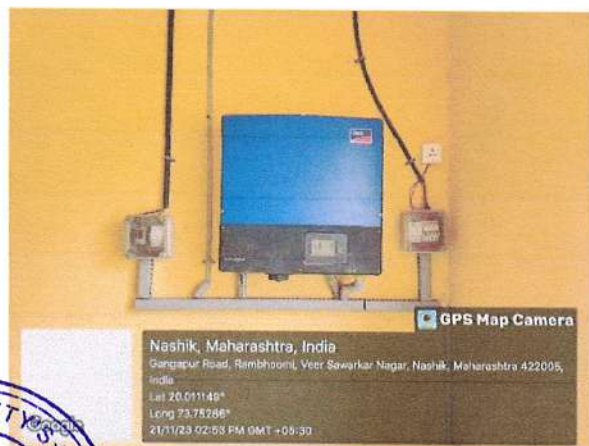

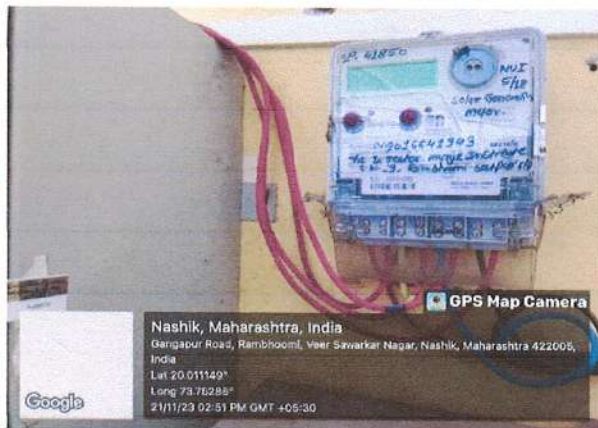

Other Details

Alternate sources of energy and energy conservation measures:

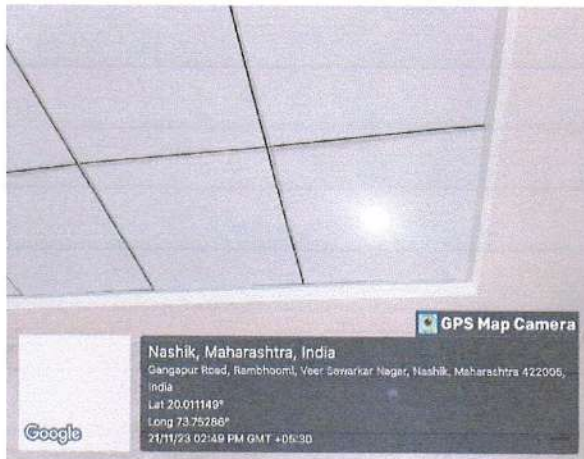

In line with our commitment to sustainability, Dr. Moonje Institute recognizes the importance of adopting alternate sources of energy and implementing energy conservation measures.

Solar Energy: The Institute has already Installed solar panels on rooftops to harness solar energy for electricity generation.

Energy Conservation Measures: The Institute implemented energy-efficient lighting systems, such as LED bulbs and fixtures, to reduce electricity consumption and maintenance costs. Encourage students & staff members to power off electronic devices when not in use and practice energy-saving habits in dormitories, classrooms, and offices.

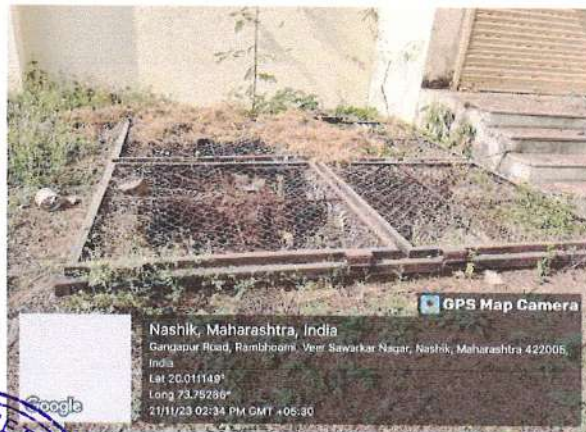

Management of the various types of degradable and nondegradable waste:

Solid Waste Management:

- Collection bins: Segregated bins for recyclable and non-recyclable solid waste.
- Waste compactor: For reducing the volume of non-recyclable waste.
- Composting area: To process organic waste into compost.

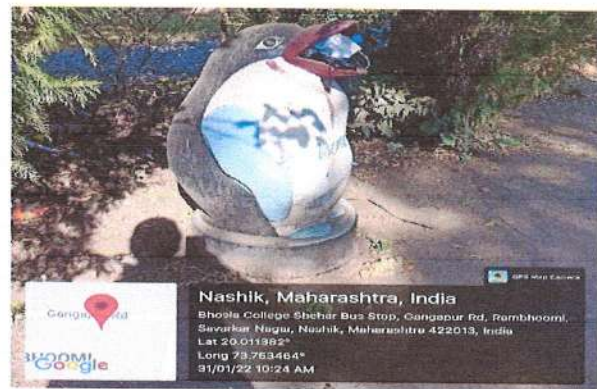

E-waste Management:

- E-waste recycling unit: To dismantle and recycle electronic components.
- Outdated Computers, Toners, Cartridges, and other electronic equipment are sold as scrap to ensure their safe recycling.
- Data destruction facilities: Ensuring secure data erasure.

Dr. Moonje Institute of Management and Computer Studies

Water conservation:

The Institute recognizes the importance of water conservation as a crucial component of our commitment to sustainability and environmental stewardship. Water is a finite resource, and we must take proactive measures to minimize water usage through the Drip System, prevent wastage, and promote responsible water management practices.
