NATIONAL LEVEL CONFERENCE ON CYBER SECURITY

Introduction: The Cyber Security Conference held on 04/02/2024 brought together industry leaders, cyber security professionals, policymakers, and academics to discuss emerging trends, challenges, and best practices in the field of cyber security. The conference provided a platform for knowledge exchange, networking opportunities, and collaboration to address the evolving cyber security landscape.

Key Themes and Discussions:

1. Threat Landscape Analysis:

- The conference began with an analysis of the current threat landscape, highlighting the increasing sophistication and frequency of cyber-attacks targeting organizations across various sectors.
- Speakers discussed the growing threat of ransom ware, supply chain attacks, and nation-state sponsored cyber-attacks, emphasizing the need for proactive cyber security measures.

2. Emerging Technologies and Risks:

- Sessions focused on the impact of emerging technologies such as artificial Intelligence, Internet of Things (IoT), and quantum computing on cyber security.
- Participants explored the potential risks associated with the adoption of these technologies and strategies to mitigate cyber security threats in a rapidly evolving digital environment.

3. Human Factors and Training:

- A significant portion of the conference was dedicated to discussing the role of human factors in cyber security, including employee training, awareness, and behavior.
- Presenters emphasized the need for continuous cyber security education and training programs to empower employees with the knowledge and skills to detect and respond to cyber threats.

Activity Coordinators Names:

Faculty Coordinators:-

- Mrs. Hema Darne

Student Participants-

- 40

Aim/Objectives of the course:

- **Knowledge Sharing:** Facilitate the exchange of knowledge, insights, and best practices among cyber security professionals, industry experts, policymakers, and academia.
- **Awareness Building:** Raise awareness about emerging cyber security threats, trends, and challenges, and educate participants on effective strategies to mitigate risks and enhance cyber security resilience.
- **Networking Opportunities:** Provide a platform for networking and collaboration among cyber security professionals, organizations, government agencies, and solution providers to foster partnerships and information sharing.
- **Skill Development:** Offer workshops, training sessions, and practical demonstrations to enhance participants' skills and knowledge in cyber security practices, incident response, and threat intelligence analysis.

Beneficiary to: MBA and MCA students

Total Participants: 40

Importance /Outcomes of Activity:

- **Enhanced Knowledge:** Participants gain a deeper understanding of current cyber security threats, trends, and best practices through keynote presentations, panel discussions, and workshops.
- **Enhanced Skills:** Participants acquire new skills and knowledge through hands-on training sessions, practical demonstrations, and interactive workshops, improving their ability to address cyber security challenges effectively.
- **Innovation and Solutions:** The conference serves as a platform for showcasing innovative cyber security solutions, technologies, and research projects, fostering collaboration and driving innovation in the field of cyber security.
